trict, containing 16,797 acres or there-
abouts.

Whereas William Lewis Boyle, of the city
of Winnipeg in the Province of Manitoba,
Banker, has made an application to the
Registrar of the Assiniboia Land Registra-
tion District for a certificate of title to the
above mentioned property under the Terri-
tories Real Property Act, free from all en-
cumbrances except a mortgage dated 7th
August, 1886, made by the Bell Farm Com-
pany, limited, to Arthur F. Eden and J. B.
MacArthur, to secure the sum of \$50,000 as
set forth in said Mortgage which application
the said Registrar has referred to me to be

News Culled for The Progress
by our own correspondents.

PRAIRIE ROSE.

—The farmers are busy cutting
their grain.

—Mr. Marshall has erected a
fine house upon his farm, sec.
18-15-16.

—Mr. James Montgomery is
building a new frame house on his
homestead.

—The other day a few of the far-
mers dug a hole two feet deep
along side of a grade on the Wood
Mountain trail and the water came
in so fast that five of them with
pails could not dip it dry.

REGINA.

—On Monday evening Hon. E.
Dewdney, Minister of the Interior,
was banquetted by the citizens of
Regina. The affair was a grand
success, so we are informed by a
gentleman who was present.

A very large concourse of people
witnessed the turning of the first
sod on the Qu'Appelle, Long Lake
and Saskatchewan railway by Mrs.
Dewdney, on the 17th inst. Mayor
Smith was master of the ceremonies
throughout. He first called on Mr.
McInnes as a representative of the
company, to open the proceedings.
Mr. McInnes then made a short
speech eulogizing Messrs. Davin
and Macdowell for the part they had
taken in getting the railway started,
then introduced Mrs. Dewdney,
who thereupon turned the sod and
placed it in a barrow. Short speech-
es were then made by Gov. Royal,
Hon. Mr. Dewdney, Messrs. Mac-
dowell, M. P., N. F. Davin, M. P.

GREENFELL.

—The Financial District meeting
of the Methodist church in this
District will be held at Greenfell,
on Wednesday, the 28th inst., be-
ginning at 9 o'clock.

SALTCOATS.

—Harvesting is nearly finished in
this locality.

—A citizens meeting decided to
address Hon. Mr. Dewdney, our re-
presentative, when he comes here.

—Jas. Bolton, of the Imperial, is
rapidly recovering from an attack
of erysipelas in the face. His sister-
in-law, Mrs. Bolton, of Minne-
dosa, who has been nursing him, re-
turned home on the 19th inst.

—A fourteen months' old child of
Thomas Paton, who lives near Lake
Severe, some miles east of this
place, died on Wednesday, the 14th
inst., of inflammation following a rupture
after 12 hours agony. The
father of the child was away haying
at the time and no medical aid was
summoned.

—Saltcoats Agricultural Society
has decided to hold its annual fair
on the 20th prox. We understand
that Dominion Land Agent Fergus-
on has decided to offer a special
prize for the best baby, one year old
or under, prize-winner to become
the property of the donor of the
prize. It is also understood that
our doctor will offer a special prize
for the best young lady, forty years
and under, donor to become the
property of the prize-winner.

THE OKLAHOMA BOOM

Forms an instance of a wild rush
for uncertainty, which is just the op-
posite of the steady boom enjoyed by
Burdock Island Rivers. Buyers of
this medicine get a certainty—a un-
equalled remedy for all diseases of the
stomach, liver, bowels, kidneys and
the blood.

MOOSOMIN.

—Were our cricketers in Winni-
peg? They were, but don't mention
it, please.

—Dr. Rutledge, Wm White, bar-
rister, and wife left for Banff and
the coast on medical excursion.

—Mr. George Parke, wife and
family, left for Rat Portage on the
15th, where they intend residing in
future.

—Inspector Constantine, wife and
family, accompanied by Miss Forbes
are spending a week's vacation at
Saltcoats.

—Mr. J. Smith, wife and Mrs.
Brigham, of Ottawa, are in town
visiting their relatives, Messrs.
Smith and Brigham.

—Mayor Daniel, J. C. McArthur,
A. S. Smith and J. Tucker have
been in Winnipeg this week attend-
ing the I.O.O.F. convention being
held there.

—Dr. James Harris is absent in
Winnipeg, where he is taking part
in the rifle competition. The Doc-
tor took first prize at Brandon re-
cently, and expects to visit Ottawa
before returning.

—On Tuesday night, the 13th
inst., Messrs. F. W. Green and P.
A. Bogue, of Brandon, were present
at a meeting here to arrange a pro-
gram of sports for the C. P. R. em-
ployees' picnic to be held here on
the 7th prox. It has been proposed
to offer \$700 in prizes for games on
that day.

—The police officers here have
traced the goods stolen this spring
from a pedlar's wagon northeast of
here. One arrest has been made,
and two police are now gone after
two other men who are implicated
in the robbery. The goods belong
to S. Narovlansky, a Jewish trader
here. As the crime was committed
in Manitoba, the prisoners, when
brought in, will be handed over to
the Brandon police for trial in
Manitoba.

ALAMEDA.

—We have stationed here Mr.
Cross, the Methodist minister, late
of Carnduff. We welcome him
among us and wish him every suc-
cess in his work.

—There have been reports going
about that water cannot be got
around Alameda, but Walsh Bros.
have been determined to get water
if it could be got. They have got
twelve feet of water in an eighty
foot well.

—Farmers have started harvest,
crops are turning out better than
was expected, but there is a few
who will not cut any. This is the
worst year we have seen here yet.
Crops will average from ten to fif-
teen bushels per acre.

—While Mr. G. Crozier was
raking hay with his young mare it
belted, throwing him under the rake
and running down the hill in the
Souris valley, where Mr. Cope was
mowing. The horse ran into his
team and started them, he not being
on the mower at the time. The
three horses ran off, breaking the
mower up so that it is useless, but
the rake can be repaired. No other
damage was done.

—Mr. Whyte, of the C.P.R., was
here inspecting the survey. The
surveyors have finished surveying
the road to the coal fields and have
gone back via Moosomin. It is a
question where the road will cross
Moose Creek, there being three
lines surveyed across, but wherever
the town is located it is sure to be a
booming place, as there is a well
settled country around, and people
wishing to settle in this district had
better hurry up as there is very
little land want.

BROADVIEW.

—The funeral of the late John
Joslyn, who met with death on the
track, took place on the 16th inst.,
and was a tended to his last resting
place by a large number of mourn-
ers from town and country. The
deceased was born in 1814, and was
a native of New Brunswick. He
moved at the age of 18, on the death
of his father, into Ontario, where
he engaged in the lumbering trade.
When 70 years of age he decided to
move west, and located at Broad-
view, where he has won for himself
the respect of all who came in con-
tact with him. In business trans-
actions all found him honorable and
upright, in trouble a generous help-
er, in success a wise councillor, in
all one of nature's noblemen. His
sudden and violent death has thrown
a deep gloom over the town. The
sympathies of all are with the be-
rieved family.

CARNDUFF.

—Mrs. Jones, of Barnesville,
Minn., is visiting her brother, J. W.
Connell, J. P. Miss Whyte, of
Pilot Mound, is also visiting her
sister, Mrs. Albert Shaw.

—Crops here are looking well,
and farmers will soon begin harvest-
ing in good earnest. There are
some good crops in this vicinity
that cannot be beaten this year.

—Your correspondent from Moo-
somin writing August 1st, stated
that the body of a man horribly
mutilated had been found on the
bank of the Souris river, near Carnduff.
This is not true, as I live on
the Souris river, between Carnduff
and Alameda, and have been up
and down the river between the two
places, and if there was any truth
in the report I should have heard
something of it. Something should
be done to stop such reports as was
in the Free Press of the same date.

A correspondent of the Weekly
Free Press of August 8th, stated
that a certain J. P. on the South
Antler, has been practicing black-
mail and other kindred matters of a
like nature. Now I have known
the J. P.'s of South Antler for
over five years; that is longer
than the correspondent of the
Press, if I judge right who he is,
and I am confident there is not a
J. P. on the Antler who would be
guilty of such a crime, and the cor-
respondent of the Free Press for
Carnduff had better keep his pen to
himself if he cannot prove these
charges, or he will have to put up
with the consequences of writing
such falsehoods.

PRINCE ALBERT.

The Saskatchewan.
—Mr. S. J. Donaldson purchased
a broncho from Messrs. McDougall
and while watering her she got
frightened, and rearing up struck
Mr. Donaldson with the fore feet,
inflicting a severe cut on his head.

—Mr. Alex. Stanfield says that
he has six black walnut trees, some
of which are nine inches high. The
seed was sent up there by the Gov-
ernment, from the Experimental
Farm, Ottawa.

—A pure bed of Sulphate of Soda
has been discovered to the north of
this town. The deposit is about
12 inches thick, and covers an area
of about sixty acres. It is covered
with a sort of crust which protects
it from rain falls, and has been used
probably for centuries by Indians
for medicinal purposes.

—Mr. Douglas Peterson, who
left here last fall for the east, is on
his way back, accompanied by his
brother, Clayton. They are bring-
ing in a car load of thoroughbred
cattle, and intend going into the
ranching business in this district.
We have no doubt their enterprise
will be a remunerative one, as there
is no better district in the North-
west for ranching purposes than
this.

FRIDAY, AUG. 23, 1889.

PRAIRIE FIRES.

On Thursday of last week a C. P. R. engineer informed some of our citizens that his engine had started a prairie fire near the town and he guessed they had better go and put it out. He added that he had been given too heavy a load, but he was going to take it through if he melted the track. This engineer knew that there is a very strict law in the Northwest against the starting of prairie fires, but he knew also that an attempt had been made to enforce the law against another C. P. R. engineer, and it had failed because the judges of the Supreme Court had decided that as the fire was kindled in the furnace of the locomotive it could not be held that the engineer was liable under the law for starting the fire on the prairie. It was clearly proved that the prairie fire was started from the engine, and the magistrate imposed the penalty of the law, but on appeal the Supreme Court quashed the conviction on the absurd ground above stated. What has been the result? The C. P. R. may inflict terrible loss upon the country, and the law is powerless to prevent it. The same day as that referred to at the beginning of this article, excursionists returning from Moose Jaw saw the prairie ablaze for many miles of the distance between here and there, no doubt started from a railway engine. If these fires are allowed to continue the country can never be settled up, as the dry seasons will continue and are likely to become more aggravated. It devolves upon the people in self-protection to secure the amendment of the law so as to effectually prevent the country being devastated by prairie fires. The Territorial Legislature should so amend the law as to make it easy of enforcement and provide the means to compel its observance.

SILENT.

We have waited for several weeks for the *Vidette* to explain:

1. Why it at one time published the name of the place where it is issued as "Fort Qu'Appelle"?
2. Why it would drop the name of its own town and steal the name of another?
3. Who would be inconvenienced or injured by harmonizing the names of the post offices of the two towns to agree with their registered and best known names?
4. How this town tried to build itself up "by battering down all competitors?"

The above questions were involved in a discussion between the

Vidette and *THE PROGRESS*, but remain unanswered. Our suburban contemporary succeeded in talking away around the real points at issue, and throwing up its cap and yelling "verbum sap," but when cornered by the above is silent as the tomb. Does the *Vidette* admit in this case that "silence gives consent"?

SHYS THE POINTS.

The *Moosomin Courier* may be complimented for its persistence in advocating and defending the system of legalized drunkard making, but the same cannot be said of its arguments. A few weeks ago it asserted that intoxicating beverages were "creature comforts that God has sent for our use." To this we opposed the fact that nowhere in nature is alcohol found, and therefore was not given to us by the Creator. The *Courier* takes exception to this and with owl-like wisdom says that is "virtually saying that because bread is not found on the tops of trees it was not given us by the Creator." And then it assumes we are crushed. There is a vast difference between bread and alcohol. In the production of the former the nutritious ingredients of the grain (the natural product) are not destroyed, but in the distillation of the latter not a particle of nutriment is retained. Grain was intended to feed and sustain animal life, not poison and destroy it; the former is a blessing, the latter a curse. The *Courier's* Scripture reference is unfortunate for its position. "Good wine" is the unfettered juice of the grape, and therefore a natural product, a blessing. But Scripture on Scripture condemns the use of strong drink. Our contemporary does not think it necessary to go into argument; unsupported assertions or contradictions seem to satisfy it. We wonder what its readers think? Our elaboration of its "\$20,000 and \$100,000 hotels" has touched our contemporary to the quick, evidently, hence it howls "idiotic drivellings," "devoid of truth," etc. We wonder where it will break out next?

"HATCHED."

The eighth day of August, 1889, completed the year in which it was competent for the Dominion Government to disallow the Jesuits' Estates Act. The fateful day passed without registering any dissent to that effect, and now the Act stands for good or ill beyond the reach of any power at present known to our system of government. We believe it will be for ill—that on the 9th day of August a serpent which will soon prove a formidable foe to the welfare of that Province. The Bill is a precedent fraught with dangers to the whole Dominion. A Provincial Government may now with impunity incorporate any possible society, and may vote public funds—get aside with whatever sanctions to beneficent uses—to the support of sectarian institutions, contrary to the manifest spirit of our constitution, and may, without fear of rebuke from Ottawa, trample upon the dignity of the Imperial Crown. The Central Government has played the traitor to the best interests of the country, and deliberately cast away safeguards which statesmen everywhere regard as precious. And for what? For the Quebec vote, by which these incompetents hope to inflict upon us for another Parliamentary term the expensive honor of their services, and to continue in the enjoyment of the salaries which are so much beyond their honest deserts.—*Grip*.

The Northern Dakota and Northern Pacific Elevator Companies have combined in regard to prices of grain, and the farmers will have to accept what they can get from the companies.

THE "ALL CANADIAN IDEA"

La Verite, an ultramontane French paper, of a recent date, had an article in regard to the national demonstration at Quebec, in which it repudiates the idea that the French people in Canada care to build up any nation on the continent but a purely French one and declares that the advocates of the *grand tout Canadien*, the all Canadian idea of one Canadian people developed from the two races, are not in sympathy with the aspirations of the French people. *La Verite* says:—But, such was not is not, never will be the desire of French-Canadians. For us, Confederation was and is a means, not an end. It is a means of enabling us to dwell in peace with our English neighbors, whilst safeguarding our rights, developing our resources, strengthening us, and making us ready for our national future. Let us say it boldly—the ideal of the French-Canadian people is not the ideal of the other races which to-day inhabit the land our fathers subdued for Christian civilization. Our ideal is the formation here, in this corner watered by the blood of our heroes, of a nation which shall perform on this continent the part France has played so long in Europe, and which she might continue to play if she would but resume the Christian traditions violently ruptured at the revolution of 1789. To do that, it is not theoretically necessary that she should become a monarchy again; but it is necessary that she should return to Christ. Our aspiration is to found a nation which, socially, shall profess the Catholic faith and speak the French language. That is not and cannot be the aspiration of the other races. To say then that all the groups which constitute Confederation are animated by one and the same aspiration, is to utter a sounding phrase without political or historical meaning. For us, the present form of government is not and cannot be the last word of our national existence. It is merely a road towards the goal which we have in view—that is all. Let us accept the present state of things loyally; let us not be aggressive towards our neighbors; let us give them full liberty to pursue their particular ideal. But let us never lose sight of our own national destiny. Rather let us constantly prepare ourselves to fulfil it worthily at the hour decreed by Providence, which circumstances shall reveal to us. Our whole history proves that it is not to be a vain dream, a mere Utopia, but the end which the God of nations has marked out for us. We have not been snatched from death a score of times; we have not wrought marvels of resistance and of peaceful conquest in the Eastern Townships and in the border counties of Ontario; we have not absorbed many of the English and Scotch settlements planted among us in order to break up our homogeneity—we have not put forth all these efforts and seen them crowned with success to go and perish miserably in any all-Canadian arrangement.

THE NEW SYSTEM.

A member of the government was asked what was the plan proposed in regard to the proposed revolution of the school system. He said the boards of education would be abolished and the system would be administered by the government, which would be responsible to the people, so that if any changes were found desirable or if anything worked badly the government could promptly remedy the evils. If the system of administering the department had been found to work badly in Ontario, the fault was not due to the system but to the head of the department, Hon. G. W. Ross, who made an extremely bad minister. There was too much trucking in Ontario. There would be none here. No appointments would be made but those which commanded the respect and confidence of the people, and the school system would be run regardless of politics. There is to be but one curriculum for all schools, and all religious instruction in schools will be abolished. In French municipalities, where the children were mostly all French, teachers will be employed who can speak French, and thus it is to be the lessons but English is to be the predominating language. The member of the government in question said the new system proposed

implied the abolition of separate schools, as the doing away with religious instruction in them was a death-blow at the outset.—Sun.

Toronto's death rate of July was but 1.47 per thousand against 3.62 for Montreal.

The Republicans of New York State are warmly discussing the high license question.

The gale on Georgian Bay Thursday was terrific. Two large rafts of logs were lost by tugs.

A gas explosion in New York Friday night killed a man and injured over twenty other people.

Information is received that friendly natives have captured the town of Singat from the Derivishes.

Twenty-eight municipal officers of Madrid have been arrested for frauds in the city administration.

A strong syndicate has been formed in China to build a trunk line of railway from Hankow to Peking.

Fifty-two members of the British House of Commons have signed a petition in behalf of Mrs. Maybrick.

The storm in the Missouri valley a few days ago caused the loss of twenty lives and half a million dollars.

Owing to pressure from the Powers, Greece has countermanded the order despatching war ships to Crete.

European residents in East Africa fear an attack during the Mussulman New Year's Day celebration, August 28.

Four more bodies were found at Johnstown on Wednesday. Two were those of women and two of children.

Coal from the anthracite mines near Banff will compete with United States coal on the Winnipeg market this year.

A verdict of manslaughter in the third degree has been rendered by the coroner's jury against McLaughlin, who shot Ferguson at Calabogie the other night.

The Macedonian Christians at last are being heard against the misgovernment of the Sultan. Women suffer terrible indignities, the least of which is simply outrage.

Thos. A. Edison was presented by a special envoy from King Humbert of Italy, with the insignia of a grand officer of the Crown of Italy. This gives Mr. Edison the rank of a count in Italy.

Rev. Wm. Timberlake told the Kingston Pentecost boys members of parliament were no better than the people who sent them. The eectors knew how they were pandering for support, and no objection was offered. He was glad to see a change in the condition of affairs and that the people were becoming alive to their duty.

The Mauser Rifle Factory is now turning out and forwarding 1,300 rifles a week for the Turkish Government. They have already delivered 75,000 of these weapons, and are under contract to complete the order without interruption. The Krupp's have finished 850 field guns which were ordered by the Turkish Government in 1886, and the heavy ordnance, ordered for the defence of the Bosphorus will follow as rapidly as possible.

The general manager of the Grand Trunk railway, Mr. Jos. Hickson, passed through the city to-day en route to Montreal from his tour of inspection of the tunnel which is now being constructed under the Detroit river. Mr. Hickson expressed himself well satisfied with the work in progress, and says that the G. T. R. have a right to expect that this most important work will be thoroughly completed in the very short space of two years or less, judging from the manner in which operations are now being pushed forward.

At Roslyn, Washington Territory, Fred. Toshman, a saloon keeper, shot a man named Thomas and was lynched yesterday.

A wreck involving the loss of three lives and injury to about twenty others persons occurred on the Pennsylvania railroad at Sarvers Station Friday night.

A message was received by the police at Moose Jaw, on the 18th inst., from Supt. Jarvis, that a man had left Wood Mountain for Moose Jaw riding a dark brown horse, who was wanted for murder. The police here arrested a party on the 19th inst., answering the description of the man, a few miles south of Moose Jaw on the Wood Mountain trail.

The officers of the citadel are having a commemorative inscription engraved in memory of the brave Major Short, who died a victim to zeal in the terrible St. Sauveur conflagration in May last. It will be placed in the English cathedral of Quebec. A project is also on foot to erect a monument on the spot where Major Short and Sergeant Wallack met an untimely death.

Of the eighteen prisoners arrested for raiding the Indian bazaar, sixteen were in the employ of the Sultan. One was in the employ of the Germans, and the other had no employer. Each received fifty blows with a stick, they are now lying confined in the Barracks. The riot occurred between 6 and 7 in the evening, but as no police are ever on duty in the streets in daytime the soldiers had to be brought from a distant part of the town, and these after restoring order, patrolled the quarter until 3 in the morning. To-day there was another slight riot in the bazaar between Arabs and Banyans, and two of the latter were beaten. There is still much talk of a disturbance brewing Sunday in Zanzibar.

EDMONTON.

From The Bulletin.

—The Methodist Indian mission school conducted at Battle river under the superintendence of Rev. E. B. Glass, has been awarded a prize of \$50 as the second best Indian school in the territories, the award being made on report of J. A. Macrae, inspector of Protestant Indian schools. Miss Degraff arrived recently from Dakota to take charge of the school as teacher.

—Charles Boiteau, of Calgary, charged with stealing \$167 from Samuel Cunningham of St. Albert was recently sentenced to six months imprisonment. On receiving sentence he called the judge a vile name, and one of his friends afterwards assaulted the principal crown witness. Who is running Calgary anyway? The authorities or the toughs? The heretofore pleasant relations between these two parties are evidently becoming strained.

—Messrs. J. Knowles and Thos. Henderson, have cloven and ten respectively. The bees are working well and making honey faster than last year at this season. The 21 swarms are the increase from two and four imported this year. This experiment settles the question whether or not the wild flowers of the country produce enough honey to make bee keeping possible and profitable. Last season was very wet and this season is very dry and in both the bees have found abundance of honey of the very best quality.

FOUR NEW STATES.

South Dakota, North Dakota, Montana and Washington.

On February 22, 1889, the President signed the bill creating South Dakota, North Dakota, Montana, and Washington states of the Union.

South Dakota.—The great Prairie State, to which the St. Paul, Minneapolis & Manitoba Railway has three main lines reaching Ellendale, Aberdeen, Huron, Watertown, and Sioux Falls. Go to South Dakota via the St. Paul, Minneapolis & Manitoba Railway and pass through St. Paul and Minneapolis en route.

North Dakota.—Where is grown No. 1 Hard Scotch Fife wheat; whose healthful climate nurtures the most vigorous and heavy yielding corn; where single counties raise more wheat, oats and barley, than entire states; the soil of whose fertility produces richer than the valley of the Nile; where the Fort McKeen, Mount, Devil's Lake and Dakota rivers the house seeker to secure a free home. Magnificent daily train service to Fargo, Grand Forks, Grafton, Devils Lake, Bottineau, and all other important points.

Montana.—The golden.—Treasures in her mines of precious metals; wealth in her four million head of live stock; profit in her fertile fields, producing a larger yield of crops than any other state or territory; the richest country per inhabitant on earth, where property is universal; which has the best paid labor in the world; a balmy winter climate, caused by warm winds from the Pacific. The St. Paul, Minneapolis & Manitoba Railway is the only railroad passing through a continuous agricultural country from St. Paul and Minneapolis to the Rocky Mountains. It runs through the Great River valley of 15,000,000 acres of land, free to settlers, in the Milk River Valley. Wood, water, and coal in abundance; no irrigation required; the only line passing through Great Falls, with its 1,000,000 horse-power cataracts; immense coal veins, and surrounding farming country of free land; through Helena, the capital city and commercial centre of Montana and Butte, the richest mining camp on earth, to San Francisco by the Columbia River Valley, Fort land and State Route, or Ogden, Utah, to California ports. Remember, this is the only line running dining cars, sleeping cars, and free colonist sleepers of its own from St. Paul and Minneapolis to Great Falls, Helena and Butte. It is also the shortest line to Butte.

Washington.—The country of tall timber bordered by Puget Sound, the Mediterranean sea of the Pacific. Do not forget that the St. Paul, Minneapolis & Manitoba Railway is the only line which offers a choice of three routes to the Pacific coast. The Manitoba Pacific route is the only line by which passengers en route for Tacoma, Portland and San Francisco can pass through Port Townsend and Seattle. Free colonist sleepers run through without change of trains. Distance to the Pacific coast is same as by other lines, but prices of tickets are five and ten dollars less. Take the Seattle route.

RECEPTION TO HON. E. DEWDNEY.

On Monday evening last a meeting of citizens who favored giving a public reception to Hon. E. Dewdney M. P. for this riding and Minister of the Interior, was held in McLane's hall. A committee was appointed to make arrangements, and they met on Tuesday. It was decided to tender Mr. Dewdney a banquet, but he has said that he would prefer to receive an address and meet more people than could attend a banquet. It has therefore been decided to present an address to him in the immigration building, when he comes to Qu'Appelle, which will be in four or five days, the date is not yet definitely known. The committee appointed to prepare the address are Messrs. R. D. Strong, Leslie Gordon, Dr. Edwards, A. C. Paterson and A. M. McLane. All the notice possible will be given of the time of presentation of the address. An explanation as to the Regina banquet would not be out of place. It may be remembered that when Mr. Dewdney vacated the office of Lieutenant-Governor and was appointed Minister of the Interior that the citizens of the capital tendered him a banquet on his leaving Regina. Mr. Dewdney accepted, and the date was all but fixed, but before it could take place he was called to Ottawa on important business. This being Mr. Dewdney's first tour through the Northwest since then and the formerly proposed banquet having been deferred, he felt it due to the people of Regina to accept the one given him last Monday night.

C. P. R. PICNIC.

On Thursday of last week the employees of this division of the C. P. R. held their annual picnic at Moose Jaw. An excursion train was run from Broadview, and by the time it reached Moose Jaw it comprised ten well filled cars. A large number also came from the west and the surrounding country, and there must have been a thousand and pioneers besides the people of the town. The chief event of interest was the base ball tournament. Medicine Hat, Moose Jaw, Regina and Qu'Appelle entered nine. The first games were between Medicine Hat and Regina and Moose Jaw and Qu'Appelle. At the end of the first innings the Regina team threw up the sponge, the score was 2 to 37 in favor of Medicine Hat. The other game, barring the umpiring, was declared to be the best game of base ball ever played in the Territories; the score was Moose Jaw 8, Qu'Appelle 7. Qu'Appelle and Regina then played and the game was again thrown up by Regina at the end of the first innings, the score being 0 to 9 in favor of Qu'Appelle. Moose Jaw and Medicine Hat played five innings, which resulted in a score of 7 to 14 in favor of Medicine Hat. There was not time to complete the tournament so that first money was taken by Medicine Hat, second by Moose Jaw, and the Qu'Appelles saved their entrance fee. Besides the base ball there were other amusements such as foot races, etc. There was also a rifle match, and the Regina Methodist Sunday School held their annual picnic there taking advantage of the excursion to give the children an outing. Two brassbands—Regina Citizens and Regina Mounted Police—furnished excellent music during the day. Taken as a whole the picnic was very successful and the committee of arrangements deserved credit for way in which the program was carried out.

ONE-SIDED.

To the honest and candid mind it must be disgusting to read the one-sided reports given to the press of the base ball tournament at the C. P. R. picnic at Moose Jaw on the 15th. The report of the Regina Leader says that the Qu'Appelle team played a Winnipeg battery leaving it to be inferred that the others were all home teams. Some knew better that such was not the case than the Leader representative. Besides the Leader says the Qu'Appelles were defeated by 8 runs though the score really was 8 to 7.

Since the composition of the Qu'Appelle nine has been referred to it is well the public should know that the Medicine Hat team comprised picked men from Kamloops, Donald, Calgary and Medicine Hat. The Moose Jaw nine included three picked men from Wascana club, one from Virvian, Manitoba, and their catcher had just arrived from Ontario. The Qu'Appelles had one man from Winnipeg, and one from Tricherie, Manitoba, the others being all residents of this town, being thus more local than either Medicine Hat or Moose Jaw. The Regina team included a man from Indian Head. If all the clubs strengthened themselves where they were weak it surely could not be wrong for one and right for all the others. But, of course, there are newspapers as well as individuals that do not know how to be fair, and the Leader is one of them.

Qu'Appelle base ball men are not kickers if they would have refused to continue the game under the umpiring that they were subjected to. They preferred to be umpired right out of the game, which was really the case than all other kicking. But since the other papers have been so unfair it is well to show that the umpire, Mr. Gallagher, of Lethbridge seemed determined to give the game to Moose Jaw that was played between Qu'Appelle and Moose Jaw nines. One of the balls thrown to Qu'Appelle was called a strike when the umpire had his back to the pitcher and from his position could not see it. A ball that was clearly a foul was called fair and Moose Jaw scored two runs on it when the chances were as one to a thousand that they would not have scored that innings. The umpire afterwards admitted that he had made a mistake in calling it a fair ball. Another ball to a Qu'Appelle man was clearly below the knee yet was ruled three strikes and out, whereas the batter was really entitled to a base for four balls. It can thus be seen, as Moose Jaw won by only one run, that with fair umpiring the Qu'Appelle team was justly entitled to the game. With a competent umpire the same Qu'Appelle team is ready to play the same Moose Jaw team any day for money.

Correspondence.

To the Editor of the Progress:

SIR: Anyone who attended the C. P. R. picnic at Moose Jaw, would smile (and think that the writer must have been indulging in something stronger than four per cent) on reading the account of the base-ball tournament, in the supplement of the Regina Leader. It says Medicine Hat was pitted against Regina and that Medicine Hat had an easy victory, easy forsooth, I should rather say so, Medicine Hat mopped the ground with Regina in such good shape that the Regimians threw up the sponge at the end of the first innings, the score standing Regina 2, Medicine Hat 37. The correspondent of the Leader must have again taken of the cup that cheers when he says the match between the "Hat and Jaw" was the feature of the day. Everybody else said that the match between Moose Jaw and Qu'Appelle was the best contested match that had ever been played in the Territories, the score being Moose Jaw 8, Qu'Appelle 7, and Qu'Appelle was not beaten (as our friend of the cup says) by 8 runs but by 1, and he says nothing about the match between Qu'Appelle and Regina when Regina again retired after the first innings with a score of 0 to 9 in favor of Qu'Appelle.

Yours, etc.

PICNIC.

—Mr. G. S. Davidson, M. L. A., was at Regina on Monday. He says the Assembly will probably be called together about October 1st.

8 YEARS IN BED.

Timely wisdom is shown by those who keep Dr. Fowler's Extract of Wild Strawberry on hand. It has no equal for cholera, cholera morbus, diarrhoea, dysentery, colic, cramps and all summer complaints or looseness of the bowels.

NEWSPAPER LAW.

The following is a resume of the laws in force regarding the receiving of newspapers: 1. Subscribers who do not give express notice to the contrary are considered wishing to continue their subscriptions. 2. If subscribers order a discontinuance of their periodicals, the publishers may continue to send them until arrears are paid. 3. If subscribers neglect to take the periodicals from the office, to which they are directed, they are responsible till they have set up their bill and ordered them discontinued. 4. If subscribers move to other places without informing the publisher, and the papers are sent to the former direction, they are held responsible. 5. The courts have decided that refusing to take periodicals from the office or removing and leaving them uncollected for, is *prima facie* evidence of intentional fraud. 6. If subscribers pay in advance they are bound to give notice at the end of their time if they do not wish to continue taking it, otherwise the publisher is obliged to send it and the subscriber will be responsible until an express notice, with payment of all arrears, is sent to the publisher. The latest postal laws are such that newspaper publishers can arrest anyone for fraud who takes a paper and refuses to pay for it. Under this law the man who allows his subscription to run along for some time unpaid and then orders it discontinued, or orders the postmaster to mark it "Refused," and have a postal card sent notifying the publisher, lays himself liable to arrest and fine, same as for theft.

THE FOUR CARDINAL POINTS.

FOR SALE

A ROAN FONY COLT, by Power, 15 months old, 13 hands high, very handsome and graceful in movements, and without a blemish. Apply to L. G. BELL, Sec. 4, 18, 14.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Cottages, Regina Jail," will be received until Friday, 25th September, 1889, for the several works required in the erection of Cottages, Regina Jail.

Specifications can be seen at the Department of Public Works, Ottawa, and at the office of H. J. Peters, Clerk of Public Works, Regina, on and after the Friday, 9th August, 1889, and tenders will not be considered unless made on form supplied and signed with the actual signature of the tenderer.

An accepted bank cheque payable to the order of the Minister of Public Works, equal to five per cent. of amount of tender, must accompany each tender. This cheque will be forfeited if the party declines the contract, or will be returned in case of non-acceptance of tender.

The Postmaster does not bind himself to accept the lowest or any tender.

By order, A. O'BRIEN, Secretary.

Department of Public Works, Ottawa, 24th July, 1889.
